

Seminar Invitation

The CPT seminar you cannot afford to miss!

Geomil is the world's first manufacturer of Cone Penetration Testing (CPT) equipment. For over 80 years, we have been supplying the geotechnical industry with the best possible CPT equipment from our base near Gouda, The Netherlands. In 2014 we opened a regional office in Kuala Lumpur, Malaysia to enhance the support for Asia-Pacific.

Who should attend

The CPT seminar is suitable for everybody with a professional interest in CPT. Even though the focus is on Geomil's CPT equipment, it has proven to be extremely useful for anybody involved in the CPT industry.

Objectives

The objective of the seminar is to provide the participant with a fundamental knowledge and understanding of the CPT from the equipment, the theory behind the test and the use in geotechnical practice as well as an understanding of the data obtained. This interactive seminar will cover the history, the basics, the variety of machinery, the applications and also the hands-on practical use of CPT equipment.

Register

We would like to ask you for your input prior to the seminar. By filling out a short survey, Geomil will be able to tailor the seminar such that the topics/subjects are addressed that matter to you. Additionally, we would like to establish a good understanding about the current Taiwanese CPT market allowing us to provide even better service than before.

The survey is very brief and will only take about 5 minutes to complete. Your input will be treated confidentially. Filling out the survey is your ticket for a free seat to the seminar. Are more people from your company coming? They can secure their ticket by filling out their own survey. Out of practical reasons we need to limit the attendance. Hence, please ensure that you fill out the survey as soon as possible to secure your free seat. *The following link will lead to the survey: <https://goo.gl/forms/VvST90wcYiyzLTGb2>.*

When and where

The seminar will be held on 17 January 2019 in the NTUH International Convention Center in Taipei City, Taiwan.

Additional information

- Participation is free of charge.
- The seminar language is English.
- Coffee, tea and lunch are included.
- Closing date for registration is 10 January 2019.

For more detailed information please contact asia@geomil.com or call us at +601 9297 9878.

“The short course proved a valuable refresher to CPT practice and an insight into how this relates to Geomil cones and acquisition systems.”

Evaluation by previous participant

Seminar Program

THURSDAY 17 JANUARY 2019

09.00 – 09.30	Welcome
09.00 – 10.30	Why using CPT? <ul style="list-style-type: none">▪ History and technical progress▪ Working principle and terminology▪ Advantages and limitations of the CPT▪ Use of data and parameters obtained
10.30 – 11.00	Coffee break
11.00 – 12.30	Operations and applications <ul style="list-style-type: none">▪ Typical applications▪ Operational considerations; what to use?▪ What sort of machinery is available and what suits best?▪ Possibilities and constraints of various systems
12.30 – 13.30	Lunch
13.30 – 14.45	Measuring technology and data quality <ul style="list-style-type: none">▪ Sensor technology▪ Cone selection and effects▪ Sources of error and warning signs▪ Dissipation test
14.45 – 15.15	Coffee break
15.15 – 16.15	Data processing and interpretation <ul style="list-style-type: none">▪ Derived parameters▪ Factors affecting data▪ Data interpretation▪ Standards
16.15 – 16.30	Question & Answer
16.30	Closure

Coffee, tea and lunch is provided between the sessions
